

# “DAVORsorge”

## Professional Support on the Topic of Aging

### PAINS - NEEDS

As people grow older, their lives change and they need support with regards to issues such as care, housing, legal matters, inheritance and quality of life. Professionals from the fields of law and mediation have the potential to create clarity, structure and security in case of emergency through joint planning.

### GAINS

“DAVORsorge” should offer professional moderation for affected people on the subject of aging. Comprehensive planning takes the strain off clients and their relatives in an emergency. This leads to a higher quality of life for all people involved. The offer enables social and legal security as well as self-determination in old age.

With “DAVORsorge” conflicts can be resolved, time and costs saved, and strained situations avoided.

### EXISTING PROBLEMS

In most cases, old-age planning is limited to certain subjects (e.g. inheritance) or does not take place at all. For example, if an elderly person suddenly falls seriously ill, often no precautions have been taken. How can the care and living situation be guaranteed?

These questions are challenging and need to be clarified quickly. Those affected are often overcome by stress and helplessness. The services offered by DAVORsorge help to create clarity and security for everyone.

### THE CHALLENGE

One aim of DAVORsorge is to create positive awareness in society of the challenges of old age. DAVORsorge also wants to support self-determined ageing by professionally moderating, planning and clarifying individual challenges before they occur. Both clients and their relatives should be provided with clarity, structure and individualized planning for their lives and varying circumstances.
